TUESDAY..... OCTOBER 12, 1880.

FOR PRESIDENT,

JAMES A. GARFIELD,

Of Ohio.

FOR VICE PRESIDENT,

CHESTER A. ARTHUR,

Of New York.

A rooster's head is generally well combed.

The State elections of Indiana and Ohio will be held to-day.

There are eighty-two Mormon churches in England and Ireland.

Texas produces cider from tomatoes. It sells for \$1.25 a gallon.

Watch and be vigilant, if you would gain a victory. Do not let the enemy out-do you in zeal and energy.

No patriot should say he has not the time to spare at the polls. It is the duty of every man to be present, and work for the success of the Republican party. Let no consideration keep you from this duty.

Game is said to be very plentiful in Merced county, Cal., on the San Joaquin river—ducks particularly—and so thick that the people of that section are killing them with clubs.

Go to the polls when the first ballot is offered, and remain until the last one is received. Fight in earnest, and let the sun of the 2d day of November set on a glorious victory for the Republicans.

One of the longest, if not the longest, narrow-gauge roads in the country, is the Utah & Northern, which extends north from Ogden, across the Rocky Mountains into Montana. It is now open for 330 miles and before the end of work for the season will reach a point 360 miles from Ogden.

DECIDEDLY BINDING.

A correspondent, writing under the nom de plume "Pickaxe," sends what purports to be a genuine form of note used in and around Marshalltown, Iowa. It is certainly a most extraordinary document, and is given here with the blank spaces filled out. Here is the note given for what it is worth:

\$75 MARSHALLTOWN, Ia., Sept. 10, '80.
After date, for value received, I promise to pay John Jones Smith, or order, \$75, without relief from appraisal, stay or exemption laws, and in case same is instituted for its collection, any thing and everything in my possession can be levied upon and sold, including the last suit of clothes, the school books and food of the children, with the coffin or coffins of any of the family may be buried in; and in case that after every article is sold there remains anything due on the note, I agree that the services of myself and family shall be sold until the demands of the note are satisfied. And I further agree that in case suit is instituted for its collection to pay reasonable attorney fees, together with board bills, hack hire, saloon bills and other miscellaneous expenses for himself and family and near relatives while suit is pending. And I further agree to live on corn bread and sorghum molasses from date until the demands of this note are satisfied, with interest at the rate of ten per cent. from date, payable annually.

(Signed) ABRAM BROWN.

THE UNKNOWN ARCTIC REGIONS.—Within the Polar circle there is an enormous area, comprising at least 2,000,000 square miles, of which we know simply nothing. Whether it is land, water or ice; whether it is cold or warm; whether there are inhabitants, animals, plants, or whether it is a howling wilderness—speculation has included almost every absurdity; but of knowledge such alone as intelligent men can be content with, we have absolutely none. To attain some such knowledge is the first object now proposed in Arctic exploration. It is considered unfitting and unseemly, in the present state of scientific progress, that there should be this large area of our earth's surface still so utterly unknown. The examination of it is loudly called for; it is a problem of universal interest, the solution of which appeals not to commercial profits, pecuniary advantages, increased facility for transport and communication, but simply, in the first instance, to those higher feelings and yearnings which, whatever our remote ancestry, now distinguish us from the brutes. We want to traverse this unknown space, and see and know what it is.

John Keehan, after murdering his father, at Stratford, Ontario, coolly sauntered into the house, ate a hearty supper, slept soundly all night, and, when the body was discovered in the morning, calmly said: "Oh, yes; I killed the old cuss."

A photograph of the express train known as "The Flying Dutchman," has been taken, as it passed through Twyford Station, on the Great Western Railway, at the rate of 60 miles an hour.

HOW GARFIELD WENT INTO POLITICS.

Edmund Kirke, in his life of General Garfield, tells how he was drawn into politics. He says:

Garfield's private life was spotless, his nature whole-souled and generous, his personal appearance commanding and magnetic, his ability and integrity alike unquestioned and he was an orator with the warm feelings, the fervid imagination and the intense purpose which electrify great masses of men. His public addresses had made him widely known throughout his district and it was natural that he should be looked to as a leader in the stirring times that now were approaching. Up to 1856 he had taken but little interest in public affairs. He had been engrossed in his work as an educator; but with the Kansas-Nebraska legislation his political pulse began to stir. He saw freedom was about to engage in a hand-to-hand struggle with slavery, and, tempered as he was, was irresistibly drawn into the conflict. It was the birthday of the Republican party, all whose aims appealed to his judgement, his feelings and his imaginations. He enrolled himself at once among its speakers and became at once one of its most effective advocates. In a speech at a later time he thus alluded to this striking period:

"Long familiarity with traffic in the bodies and souls of men had paralyzed the consciences of a majority of our people. The baleful doctrine of State sovereignty had shaken and weakened the noblest and most benevolent powers of the National Government and the grasping power of slavery was seizing the virgin Territories of the West and dragging them into the den of eternal bondage. At that crisis the Republican party was born. It drew its first inspiration from that fire of liberty which God has lighted in every human heart, and which all the powers of ignorance and tyranny can never wholly extinguish. The Republican party came to save the Republic. It entered the arena where the beleaguered and assailed Territories were struggling for freedom and drew around it the sacred circle of liberty which the demon of slavery has never dared to cross. It made them free forever."

THE CONSTITUTIONAL AMENDMENTS.

Governor Kinkead is anxious that the people of this State fully understand the proposed Constitutional Amendments to be voted for at the ensuing election. The following article from the Carson Appeal, is to the point:

"It may not be generally understood that at the coming election the people of this State will be called upon to vote for or against the adoption of two amendments to the State constitution and a new article (Eighteen.) The first amendment was passed by the Legislature January 15, 1877, and provides that Section I of Article II, of the State constitution shall be amended by the elimination therefrom of the word 'white' and the effect of such elimination shall be, 'that no male citizen shall be excluded from the rights of suffrage and office-holding by reason of his race, color or previous condition of servitude, provided that this amendment shall not be construed as conferring the rights of naturalization, suffrage and office-holding to such a pitch that threats of violence have been publicly uttered. There is ground for anxiety, if not for alarm.'

NEWS OF THE MORNING.

Sheriff McCorkle was shot dead while trying to quell a row at a political meeting at Shelbyville, Indiana, Saturday.

Conkling has been speaking to tremendous crowds in Indiana and Ohio, and his speeches have been peculiarly bright and attractive.

The citizens of Ouray, Col., have resolved that if the Government does not take steps to get rid of the Utes they would take matters into their own hands.

A passenger and a freight train collided near St. Louis Sunday morning. An oil car caught fire and burned the entire passenger train. No lives were lost.

A terrible railroad collision occurred near Pittsburg, Pa. The second section of the train ran into the first, and 25 were killed and many wounded. The deaths may reach 60.

Russia is greatly scandalized over the marriage of the Czar to Princess Dolgorouki, and it is said he has almost entirely deserted his old wife. A Polish lady is said to be in special favor with the highly improper Emperor.

In an interview Gen. Grant said that there was little doubt of Republican success; said that only chronic Democratic soldiers would vote for Hancock. He endorsed the famous Fowler interview, which he says was not intended for publication.

Senator Blaine has been compelled to cancel his appointments for the stump. He has spoken so long to large meetings in the open air and often in the night time, in Indiana and Ohio, that his throat has become affected, and his physician peremptorily ordered him to seek absolute rest.

The New York Herald says: There is urgent necessity that the President of the United States return from his long pleasure trip on the distant Pacific Coast to his post of duty at the seat of government. Matters that require his vigilant personal attention are hastening to a possible crisis. In at least two States the political passions are inflamed to such a pitch that threats of violence have been publicly uttered. There is ground for anxiety, if not for alarm.

The Railroad North.

The Modoc Independent of last Saturday has the following:

From a gentleman who was here this week, we learn that work is to be commenced in a few days on the railroad from Reno to Oregon. The grade stakes have been set for a number of miles from Reno, north, and a set of hands will commence at Reno and grade north and another force will commence at Belfast, in Honey Lake valley and grade toward Reno. After leaving Belfast the road will pass through Pete's Valley, Horse Lake, Madalene Plains, and over the divide to the South Fork, thence down the South Fork, following nearly the present traveled wagon road. From this place northward it will probably go on the east side of Goose Lake to the Oregon line, following the route surveyed last summer. The entire route to be traversed by this road, is a succession of rich and fertile valleys susceptible of cultivation, and capable of producing all kinds of vegetation adapted to this climate, and the day is not far distant when, where is now a comparatively wild and unsettled country, will be made a thrifty farming country. Get ready for it, for the iron horse is surely coming.

The Carson Tribune also has the following:

It is reported here that the Nevada and Oregon Narrow-Gauge Company, which proposes to construct a railroad from Reno to Oregon, has made arrangements to secure \$14,000 per mile to complete the work by mortgaging the road as fast as built.

"LET THE RADICALS HOWL ABOUT A SOLID SOUTH. SHE IS SOLID, THANK GOD! SHE WAS SOLID FOR JEFF. DAVIS IN 1860. AND WILL BE SOLID FOR HANCOCK IN 1880"—[See Confederate States Blackburn, at Batavia, Sept. 21, 1880.]

Corona—"Brown's Bronchial Troches" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

The THROAT—"Brown's Bronchial Troches" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when r-rawed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. Speakers and Singers find the Troches useful.

Sept 14-15-16

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often results in some incurable Lung Disease. "Brown's Bronchial Troches" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "Brown's Bronchial Troches" are sold only in boxes.

Morton M. Pritchett, 14 years old, and Sarah L. Fausler, innocent 13, recently eloped from Marion, Ind., walking 20 miles to take a train into Michigan, where they were married. Their wedding trip cost \$10.75, both being so small of their age that most of the railroaders carried them for half fare.

Wm. Goeggel is classed amongst the most skillful watchmakers on the Pacific Coast.

NEWS IN BRIEF.

In the great telegraph fight, the Western Union gained its point.

Business is reviving at Seattle, W. T., and other points on the Sound.

The Irish Land League has extended its organization to Great Britain.

There is no prospect of military operations before Dulcigno for ten days.

Yellow fever caused the death of 78 persons in Havana during September.

The total coinage at the United States Mints during September was \$6,340,565.

The Atchison, Topeka and Santa Fe Railroad Company expect to connect with the Southern Pacific railroad by January 1st.

The inhabitants of Dulcigno refuse to leave the city, and say they would rather die than submit to the Montenegrins.

The English government will not be compelled, frightened or defied into any inconsiderate and headlong course by the agitation of Irish affairs by the Land League.

The Chicago Times reports that President Hayes will not return to Washington till a week after the Presidential election.

CHAT BY THE WAY.

Never wish a thing done, but do it. Men are generally like wagons; they rattle prodigiously when there is nothing in them.

If you can say nothing good of anyone, say nothing at all, for in friendship as in love we are often happier in our ignorance than in our knowledge.

No man should complain of being poor or of hard times who can afford to use rum or tobacco. That which men often puff away in smoke would supply them with broadcloth and roast beef.

The true wealth of a community lies in the integrity of its citizens, and its chief honors arising not from the possession of great riches, but from the possession of great and true men.

The body is the shell of the soul and the dress is the husk of the body, but the husk often indicate what the kernel is. No man or woman of sense would devote more care and attention to the husk than to the kernel.

Almost all good things are liable to misdirection. There seems to be a growing tendency among parents, particularly in our large cities, to give up the Sunday school to the children and then to excuse them from all attendance at other services. Now there is in this a double wrong both to parents and children. It is the duty of the former to go with their children, occasionally, at least to Sunday school and to show their interest in its success. The Sunday school as an organization feels the benefit of such visitations, and parents receive reflex benefit therefrom also.

A female shoplifter was detected in a shrewd trick at New York the other day. She had a baby in her arms, and although she was closely watched and finally arrested, nothing could be found upon her. At last it occurred to the officers to examine the baby, beneath whose long clothes were found several hooks, attached to which were two pairs of shoes, two silk handkerchiefs, a dress pattern, and other small articles.

Fragment of a letter from a father to his son. "My dear boy: I send you six new shirts made out of six of my old ones. When they are worn out, send them back to me that I may have them made into six new ones for your second brother."

There is said to be a man at Jericho, Vt., who is always called upon to break the news to the family when anybody is accidentally killed there, and he does it in such a neat manner that they are almost glad it happened.

Judge Whitman's Speech.

The Theater was well filled last evening by ladies and gentlemen interested in listening to Judge Whitman's discourse upon the political issues of the day, from a Republican standpoint. A few minutes before 8 o'clock Judge Whitman was escorted to the stage by Messrs Shoemaker, Varnian, Dawson, Bragg and Fugus Mr. Shoemaker nominated Mr. Varnian for Chairman of the meeting Upon being elected that gentleman proceeded to make a few introductory remarks, alike eloquent and impressive Judge Whitman was received with hearty demonstrations of applause. He opened with a eulogy of Beatty and Daggett of Arthur and Garfield His remarks concerning Garfield were tumultuously applauded. Branching from this he claimed that there was something higher and more important than the election of any individual, recounted what the Republican party had done for the country, and showed conclusively that no change was necessary or desirable, but that there was great danger in going backward by entrusting affairs to the Democratic party The main reason, in his opinion, why the Democratic party should not be entrusted with the Government, was because it was a party of promises and not of action, because it wanted nothing but the spoils of office, and in a forcible manner demonstrated the truth of his declaration In speaking of the history of the country he did not wish to be accused of waving the bloody shirt, but claimed that nobody had any better right to discuss the history of the country than a member of the Republican party, because we did not bloody it out withers are unwrapping, "let the galled, we wince!" It would be impossible for us with our limited space, a matter we very much regret, for Judge Whitman's speech throughout was a masterpiece of fact and figures, of telling points of sound logic and indisputable truths It was a red-hot one all through The audience was kept in splendid humor, and when the Judge ceased to talk, there were many great y disappointed, because they enjoyed his talk so much, they could have listened to him for hours longer

Democratic Meeting

In D moments had a meeting at Reform Club Hall last evening The Hall was well filled Mr J C Hagerman presided, and Bob Lowery and Mr Kirkpatrick were the speakers of the evening Bob made one of his usual funny speeches, cute and charming in its way, which kept the crowd in continual laughter. Kirkpatrick's speech was more of the thinking style, and a very good one for his side of the house

DR. HALL'S BALSAM

Cures Colds, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the members of the Lungs, inflamed and poisoned by the disease, and prevents the night-sweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and DR. HALL'S BALSAM is that remedy. DONT DESPAIR OF RELIEF for this benign specific will cure you, even though professional aid fails.

Dr. M. H. Hinsdale.

Hinsdale, Ill., advises us of a remarkable cure of Consumption. He says: "A neighbor's wife was attacked with violent fits of fits, and pronounced beyond help from Quick Consumption. As a last resort the family was persuaded to try HALL'S BALSAM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover."

Democratic County Platform.

The Democracy of Washoe county is convened to publish its platform as follows:

That we, the Democracy of Washoe county, endorse and ratify the principles enunciated in the platform of the National Convention at Cincinnati, in June last, and also our State Convention at Winnemucca, and heartily approve the lines of government therein marked out.

Resolved, That we recognize in our candidate for Congress, Hon. G. W. Cassidy, an able statesman and tried gentleman, one who, as Senator in our council has always fearlessly maintained our principles and labored for the best interests of our State, and we pledge him elected, among his first legislative acts shall be the introduction of a measure to prohibit the manufacture of all intoxicating liquors.

Resolved, That we cordially invite the support of our candidates every voter of whatever political creed, who sincerely desires that our laboring classes may be forever relieved of the curse of social competition, and cite to them the fact that relief can only come from a Democratic Congress and a Democratic President.

Resolved, That in the person of Judge C. H. Belknap we have an eminent jurist, one that is tried and true, and we point with pride his past record.

Resolved, That the Democratic party has always maintained that pose but residents of Nevada should represent her in the national convention, and that the delegates be chosen by popular vote, and not by the method of corrupting by Jones and following by flattery, of corrupting by the free use of money, the elective franchise of free people, and we call upon all Democrats and honest Republicans to come boldly forward and assist in wiping out this stain upon the fair name of our young and growing State.

RESOLUTIONS ADOPTED BY THE REPUBLICAN STATE CONVENTION:

Resolved, That the platform of principles adopted by the National Republican Convention at Chicago in June deserves and receives the approval and hearty endorsement of all Republicans of Nevada.

Resolved, That the hordes of Chinese that are coming upon our shores to eat our substance are destroying our country, impoverishing our males, maiming and laborers, debasing our youth and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the strength of the Republican party, in the language of our great leader, we regard the immigration of Chinese to the Unit. of States as little less than a servile invasion. Should the Commissioners not take steps to prohibit the Chinese from landing in our ports, we will do it ourselves by force if necessary. The Chinese must fail to succeed by the first of next month, or we will call a convention of all the Chinese in the country, and have a modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country. We demand that they then be promptly banished, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

Resolved, That we most heartily in ore the general financial policy of the party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national credit to a height never before known, and the restoration of National prosperity. We also demand the complete adoption of silver coins as a form of currency by the side of gold and for the purpose of retaining that and holding it to the benefit of the General Government through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage and for the benefit of the producer, the entire produce of the country, and relieve the mining industry from the loss attending the shipment to, and sale of silver bullion in foreign markets. As mining for the precious metals is the leading industry of Nevada, we are inexorably opposed to the bill reported by the Committee on Mines and Mining and now before the House of Representatives prohibiting the following of lesser veins of mineral deposites, and the removal of timber, bushes, and shrubs.

Resolved, That we urge our representatives in both Houses of Congress to continue their efforts for its defeat. Such a restriction would work disaster to the laborer of the prospector and seriously retard the development of the mineral riches of the West, and we cordially endorse the action of our Representative, the Hon. E. M. Daggett, in this behalf.

Resolved, That the Republican party claims it to be the right and duty of the State and Territorial Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than positive duty of Congress to regulate and restrain and restrict the charges of inter-state railroads.

Resolved, That while we congratulate the country on the successful resumption of specie payments and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes, denominations of no less than five dollars, thus creating an increased home demand as a circulating medium for the precious metals which our mines are annually yielding.

Resolved, That General James A. Garfield and Chester A. Arthur, as their services to the country by their devotion to principle and by their unspotted reputation as citizens and daring fighters, and earnest ambition of all the best people of the United States for President and Vice-President. We rejoice in their nomination and pledge to them the Electoral vote of Nevada at the ensuing election by an overwhelming majority.
